SUMMARY

Senior Frontend Engineer with 4+ years building React and Next.js products for insurance and fintech. Lead frontend architecture, built a 20+ component design system, and cut bugs by 40% with code review standards. Built and launched FastRAG, a paid RAG product with streaming Claude answers. Available 12:00–22:00 IST: most of the EU workday and US East Coast mornings.

EXPERIENCE

Riskcovry — Insurtech — Bangalore, India

Senior Software Engineer, Frontend — Apr 2025 – Present

- Built a reusable design system with 20+ components, which removed UI inconsistencies and sped up delivery.
- Set code review standards and frontend best practices, which cut bugs by 40%.
- Led frontend architecture decisions across multiple React projects for scalability and maintainability.
- Mentored junior developers and set requirements with backend and product, so features shipped with minimal rework.

Software Engineer, Frontend (promoted) — Jul 2022 – Apr 2025

- Built 15+ reusable React components, which cut development time by 30%.
- Integrated REST APIs into 5+ frontend applications with consistent data handling.
- Introduced Redux state management, which improved stability and maintainability by 25%.
- Shipped with cross-functional teams of 5+ people and raised user satisfaction by 20%.

Frontend Engineer Intern · Remote — Jan 2022 – Apr 2022

- Optimized frontend code, which improved load speed by 15%.

Independent — Upwork — Remote

Frontend Engineer — Mar 2022 – Present

- Delivered 9 client frontends end to end, from scoping to production deploy on Vercel.
- Built Web3 interfaces with MetaMask wallet connection, token staking, and minting using ethers.js.

PROJECTS

FastRAG — RAG starter kit for Next.js, launched as a paid product · Next.js, Claude, Voyage AI, Pinecone

- Built streaming chat over Server-Sent Events; sources arrive before the first token, so citations render first.
- Built PDF (up to 20 MB) and URL ingestion that runs in serverless functions, with per-tenant Pinecone namespaces.
- Added per-visitor rate limiting with a live reset countdown to protect a public demo that calls paid APIs.

Track Daily — Habit tracker · Next.js 15, Firebase, Tailwind CSS

- Built real-time sync across devices; 50+ users track habits on the app.

Portfolio — Strict TypeScript, Vitest, GitHub Actions CI

- Built a DST-aware time zone overlap tool and an accessible command menu; Lighthouse accessibility 100.

SKILLS

Frontend: TypeScript, JavaScript (ES6+), React, Next.js, Redux, Tailwind CSS, Framer Motion, HTML5, CSS3
AI & LLM: Claude API, RAG pipelines, LangChain.js, Voyage AI embeddings, Pinecone, SSE streaming
Backend & data: Node.js, Express, MongoDB, Firebase, REST APIs
Quality & tooling: Vitest, React Testing Library, GitHub Actions, Git, Figma, Vercel

EDUCATION

MCA, Chandigarh University · CGPA 8.2 — 2023 – 2025

B.Sc. Computer Science, Acharya Narendra Dev College, University of Delhi · CGPA 8.5 — 2019 – 2022
